DEFIANCE X SERIES: ULTIMATE, UNCOMPROMISING BASS.

Everything is maximized with the new **Defiance X10 / X12 / X15** subwoofers. Output is massive, thanks to heavy-duty, internally-braced cabinets, and Active Ridge Technology (ART™) for maximum driver-excursion. Massive SPL levels are coupled with precision control, intense detail and vanishingly low distortion. Crafted in Canada, Defiance X outperforms every sub in their class.

DEFIANCE V SERIES: ALL PERFORMANCE. NO GIMMICKS.

For intense bass performance with no gimmicks, **Defiance V8 / V10 / V12** subwoofers are an amazing value. Smaller footprints pack tons of technology into a compact powerhouse of low frequency impact. Pound for ground-shaking pound, Defiance V delivers the best bass at an unbeatable value.

DEFIANCE X & V FEATURES AND FUNCTIONS:

NEW! App Controlled*: Simplify setup & tuning with the free Paradigm Subwoofer Control App*, available for iOS and Android devices. Adjust volume, low-pass filter, phase, deep bass and much more from the comfort of your listening chair. It features three preset listening modes, and lets you remotely run the Anthem Room Correction (ARC®) process.

* Not available on Defiance V8

Anthem Room Correction (ARC®): Using your mobile device or calibrated microphone (included with Defiance X models, sold separately on Defiance V models*), ARC measures your space, compares it to lab standard using proprietary advanced DSP algorithms, and instantly removes performance-robbing anomalies. The result is easy to hear: realistically blended, accurately rendered deep bass. Professional room correction at the touch of a button.

* Not available on Defiance V8

ARC mic with
3.5 mm & USB Connections

Optional Wireless Module: Place your subwoofer anywhere in your room, with no inconvenient cabling, and without sacrificing speed or performance. The Defiance WT Wireless Module* (sold separately) features fast and clear 2.4 GHz dynamic frequency selection with instant error correction and a 50ft range.

* Not available on Defiance V8

Down Firing Ports: Tuned ports turn the floor into a tool for enhancing bass response, allowing more flexible placement options with no risk of turbulence or distortion.

Built to Perform: Reinforced cabinet construction and vibration-killing driver design delivers deep, detailed bass.

EXCLUSIVE DEFIANCE X FEATURES AND FUNCTIONS:

Crafted in Canada: All X Series subwoofers are designed, engineered and manufactured in our state-of-the-art 225,000 ft² Canadian facility.

ART™ Surrounds: Made in-house and overmolded directly onto each woofer cone. This design achieves greater excursion, for a 3dB gain in output and 50% reduction in distortion. Crafted from injection-molded thermoplastic elastomer, ART surrounds are more durable and more reliable than conventional surrounds, ensuring a lifetime of superior sound. US patents: D654,4795 and 8,340,340B2

Massive SPL Output: Defiance X feature more powerful amplifiers, with the X15 producing an impressive 900W RMS (1800W Dynamic Peak).
